

MAKING SELECTIONS

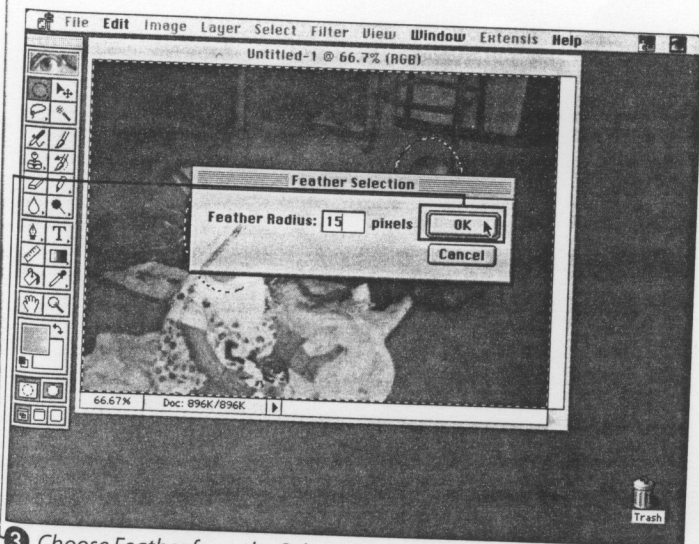

Adding, Subtracting, and Intersecting Selections

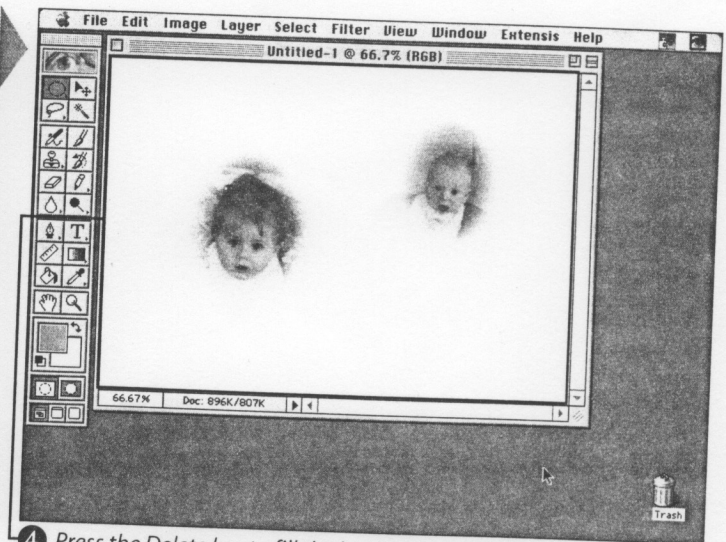

1 Choose the Elliptical Marquee from the toolbox. Make an initial oval selection, then hold the Shift key to add another oval to the original selection.

2 Choose Select ⇨ Inverse.

3 Choose Feather from the Select menu, and enter a value of 15. Click OK.

4 Press the Delete key to fill the background area in white. Press Command (Ctrl)+D to deselect your selection.
