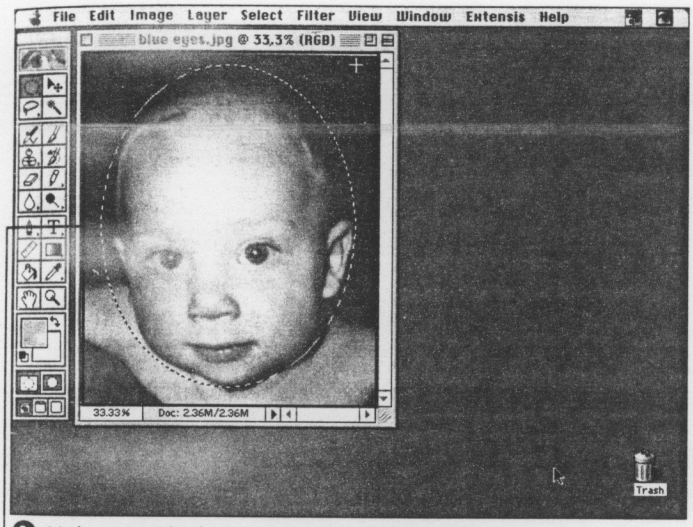
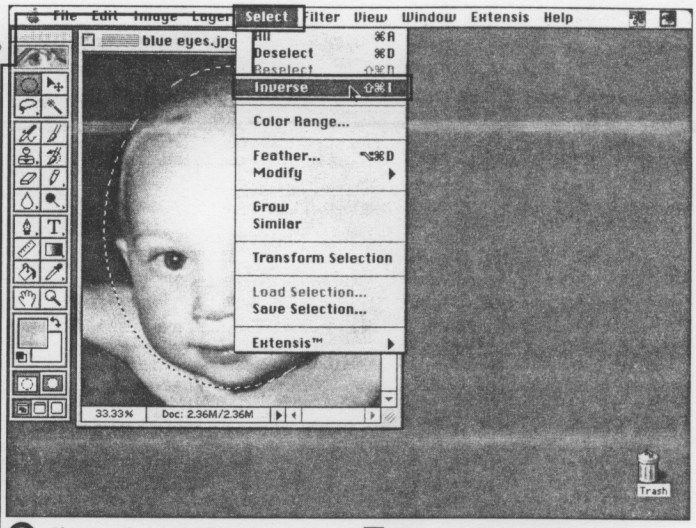
# Using Selection Features and Creating Text

## Feathering an Image

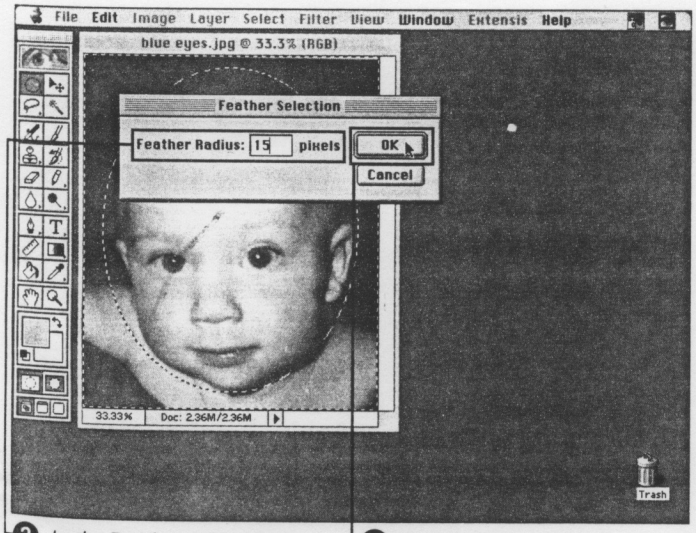


1 *Make an oval selection using the Elliptical Marquee.*



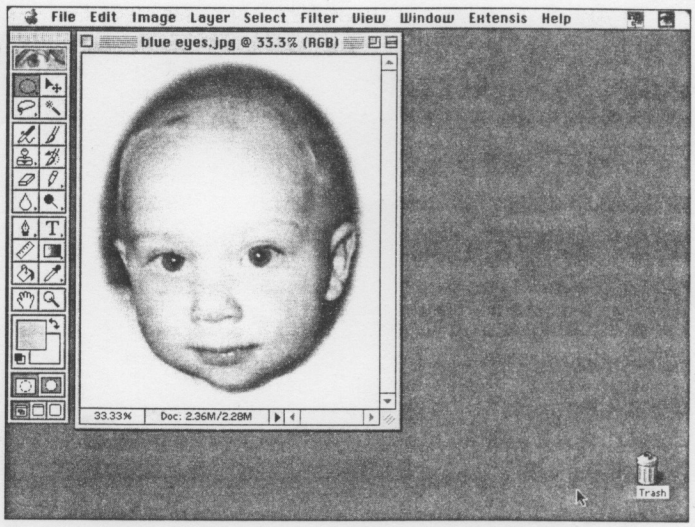
2 *Choose Select ➪ Inverse.*

■ *Choose Select ➪ Feather.*



3 *In the Feather Selection dialog box, enter 15 for the Feather Radius for a wide soft feather. For less or more of a feather enter a number between .2 and 250.*

4 *Click OK.*



■ *Press Delete to fade to white or Option (Alt)+Delete to fade to black.*

■ *Press Command [Control]+D to deselect the image.*
